Summary

This is a comprehensive policy covering step therapy, prior authorization and quantity limit requirements for medications used to treat skin conditions.

This policy applies to members utilizing the below medications for the treatment of skin conditions (i.e. atopic dermatitis). Coverage of medications listed below that are FDA approved for other indications can be found in the [related Medical Polices](#) listed above.

Policy

Step Therapy Requirements

| | |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Length of Approval | 12 months |
| Formulary Status | All requests must meet the Step Therapy requirement and for non-covered medications, the member must also have had a previous treatment failure with, or contraindication to, at least two covered formulary alternatives when available. See section on individual consideration for more information if you require an exception to any of these criteria requirements for an atypical patient |
| Member cost share consideration | A higher non-preferred cost share may be applied if an exception request is approved for coverage of a non-preferred or a non-formulary/non-covered drug. |

Step Therapy for Calcineurin Inhibitors, PD4 inhibitors, and JAK inhibitors

| Drug | Formulary Status (BCBSMA Commercial Plan) | Step Requirement |
|-------------------------------------|-------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Step 1 | | |
| Topical corticosteroids | Covered | Covered with no requirements |
| Step 2 | | |
| Eucrisa [®] (crisaborole) | ST, QCD | Requires prior use of ONE step 1 medication OR history of prior use of any step 2 medication in this table within the previous 130 days. See below for prior use criteria. |
| Opzelura [™] (ruxolitinib) | ST, QCD | |
| Pimecrolimus Topical | ST, QCD | |
| Tacrolimus Topical | ST | |
| Step 3 | | |
| Elidel [®] (pimecrolimus) | ST | Requires prior use of TWO step 2 medications OR history of prior use of a step 3 medication in this table within the previous 130 days. See below for prior use criteria. |
| Zoryve [®] (roflumilast) | NF, ST | |
| Protopic [®] (tacrolimus) | ST | |

Step Therapy for Aryl Hydrocarbon Receptor Agonists

| Drug | Formulary Status (BCBSMA Commercial Plan) | Step Requirement |
|--------------------------------|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Step 1 | | |
| Topical corticosteroids | Covered | Covered with no requirements |
| calcipotriene | Covered, QCD | |
| calcipotriene - betamethasone | Covered, QCD | |
| calcipotriene - clobetasol | Covered, QCD | |
| Step 2 | | |
| Vtama [™] (tapinarof) | ST | Requires prior use of TWO step 1 medications OR history of prior use of any step 2 medication in this table within the previous 130 days. See below for prior use criteria. |

QCD - Quality Care Dosing (quantity limits [policy #621B](#)); ST – Step Therapy

Biologic Agents for Skin Conditions Table

| Drug | Formulary Status (BCBSMA Commercial Plan) | Step Requirement |
|-----------------------------------------|-------------------------------------------|-------------------------------------------------------------------------------------------|
| Dupixent [®] (dupilumab) | PA | PA Required – See Related Policy #033 for coverage criteria |
| Rinvoq [®] (upadacitinib) | PA, QCD | PA Required - see below |
| Non-Formulary, Non-Covered Drugs | | |
| Adbry [™] (tralokinumab) | NFNC | Trial of two (2) of the formulary medications above prior to the use of a NFNC medication |
| Cibinqo [™] (abrocitinib) | NFNC | |

QCD - Quality Care Dosing (quantity limits [policy #621B](#)); ST – Step Therapy; PA – Prior Authorization; NFNC – Non-formulary Non-covered

Prior Use Criteria

The plan uses prescription claim records to support criteria for prior use within previous 130 days or the trial and failure of formulary alternatives when available. Additional documentation will be required from the provider when historic prescription claim data is either not available or the medication fill history fails to establish criteria for prior use or trial and failure of formulary alternatives. Documentation will also be required to support any clinical reasons preventing the trial and failure of formulary alternatives. Please see the section on documentation requirements for more information.

Prior Authorization Requirements

| | |
|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Length of Approval | 12 months |
| Formulary Status | All requests must meet the PA requirement and for non-covered medications, the member must also have had a previous treatment failure with, or contraindication to, at least two covered formulary alternatives when available. See section on individual consideration for more information if you require an exception to any of these criteria requirements for an atypical patient. |
| Member cost share consideration | A higher non-preferred cost share may be applied if an exception request is approved for coverage of a non-preferred or a non-formulary/non-covered drug |

In addition to the step therapy requirements, the following drugs must also meet the prior authorization criteria prior to coverage:

| Drug | Formulary Status (BCBSMA Commercial Plan) | Requirement |
|------------------------------------|-------------------------------------------|-----------------------------------------------------------------------------|
| Dupixent [®] (dupilumab) | PA | PA Required – See Related Policy #033 for coverage criteria |
| Rinvoq [®] (upadacitinib) | PA, QCD | PA Required |

QCD - Quality Care Dosing (quantity limits [policy #621B](#)); PA – Prior Authorization

Rinvoq[®]

Rinvoq (upadacitinib) may be covered when **ALL** of the following criteria are met:

Moderate to Severe Atopic Dermatitis

1. The patient has moderate-to-severe atopic dermatitis (eczema), **AND**
2. The patient is 12 years of age or older, **AND**
3. An inadequate response to at least ONE other systemic immunosuppressant (e.g., Methotrexate, Cyclosporine, Mycophenolate, Azathioprine, etc.), or when other systemic drugs are contraindicated **OR** the patient has claim history of ONE (1) of pimecrolimus or tacrolimus topical within the previous 90 days or previous treatment,

AND

4. The patient demonstrated treatment failure with a 14-day trial of a prescription topical corticosteroid in claims history or previous treatment, **AND**
5. The drug is prescribed by a board-certified or board-eligible Allergist or Dermatologist, **AND**
6. Documented Dose and Frequency must be submitted and must be within the FDA approved Dosing and Frequency.

Dupixent[®]

See [Related Policy #033](#) for all covered indications and corresponding coverage criteria.

Provider Documentation Requirements

Documentation from the provider to support a reason preventing trial of formulary alternative(s) must include the name and strength of alternatives tried and failed (if alternatives were tried, including dates if available) and specifics regarding the treatment failure. Documentation to support clinical basis preventing switch to formulary alternative should also provide specifics around clinical reason.

Individual Consideration (For Atypical Patients)

Our medical policies are written for most people with a given condition. Each policy is based on peer reviewed clinical evidence. We also take into consideration the needs of atypical patient populations and diagnoses.

If the coverage criteria outlined is unlikely to be clinically effective for the prescribed purpose, the health care provider may request an exception to cover the requested medication based on an individual's unique clinical circumstances. This is also referred to as "individual consideration" or an "exception request."

Some reasons why you may need us to make an exception include: therapeutic contraindications; history of adverse effects; expected to be ineffective or likely to cause harm (physical, mental, or adverse reaction).

To facilitate a thorough and prompt review of an exception request, we encourage the provider to include additional supporting clinical documentation with their request. This may include:

- Clinical notes or supporting clinical statements;
- The name and strength of formulary alternatives tried and failed (if alternatives were tried) and specifics regarding the treatment failure, if applicable;
- Clinical literature from reputable peer reviewed journals;
- References from nationally recognized and approved drug compendia such as American Hospital

Formulary Service® Drug Information (AHFS-DI), Lexi-Drug, Clinical Pharmacology, Micromedex or Drugdex®; and

- References from consensus documents and/or nationally sanctioned guidelines.

Providers may call, fax or mail relevant clinical information, including clinical references for individual patient consideration, to:

Blue Cross Blue Shield of Massachusetts
 Pharmacy Operations Department
 25 Technology Place
 Hingham, MA 02043
 Phone: 1-800-366-7778
 Fax: 1-800-583-6289

We may also use prescription claims records to establish prior use of formulary alternatives or to show if step therapy criteria has been met. We will require the provider to share additional information when prescription claims data is either not available or the medication fill history fails to establish use of preferred formulary medications or that step therapy criteria has been met.

Policy History

| Date | Action |
|----------------|-----------------------------------------------------------------------------------------------------------------------------|
| 12/2024 | Updated to add Prescriber requirement to Rinvoq for Atopic Dermatitis |
| 10/2024 | Added Zoryve foam & Cream as Step 3 in the policy and moved Eucrisa to Step 2 in the respective table. |
| 8/2024 | Updated to Remove corticosteroid trial for Rinvoq. |
| 7/2024 | Updated Rinvoq criteria to add trial of topical corticosteroid and topical calcineurin inhibitor. |
| 11/2023 | Reformatted policy. |
| 9/2023 | Reformatted policy. Updated IC section to align with 118E MGL § 51A. |
| 7/2023 | Updated to make Systemic table to a two-step and added clarifying language for Rinvoq®. |
| 8/2022 | Updated to add New Table for Topical psoriasis and add Vtama to the policy. |
| 5/2022 | Updated to include PA criteria for Rinvoq®. |
| 4/2022 | Updated to consolidate the Biologicals for Atopic Dermatitis into this policy and updated Opzelura™ to step 2 of the policy |
| 1/2022 | Updated to add Opzelura™ to step 3 of the policy. |
| 4/2020 | Updated to remove age edits |
| 1/2019 | Updated Cortico-steroid trial time to 2 weeks & Add Generic Elidel® to step 2. |
| 11/2018 | Moved Dupixent® to policy 033. |
| 11/2017 | Updated to include Dupixent® as step 3 to the policy. |
| 6/2017 | Updated address for Pharmacy Operations. |
| 1/2014 | Updated ExpressPath language and remove Blue Value. |
| 11/2011-4/2012 | Medical policy ICD 10 remediation: Formatting, editing and coding updates. No changes to policy statements. |
| 11/2011 | Reviewed - Medical Policy Group - Plastic Surgery and Dermatology. No changes to policy statements. |
| 5/2011 | Reviewed - Medical Policy Group - Pediatrics and Endocrinology. No changes to policy statements. |
| 12/2010 | Reviewed - Medical Policy Group - Plastic Surgery and Dermatology. No changes to policy statements. |
| 5/2010 | Reviewed - Medical Policy Group - Pediatrics and Endocrinology. No changes to policy statements. |

| | |
|---------|--------------------------------------------------------------------------------------------------------|
| 12/2009 | Reviewed - Medical Policy Group - Plastic Surgery and Dermatology. No changes to policy statements. |
| 5/2009 | Reviewed - Medical Policy Group - Pediatrics and Endocrinology. No changes to policy statements. |
| 12/2008 | Reviewed - Medical Policy Group - Plastic Surgery and Dermatology. No changes to policy statements. |
| 5/2008 | Reviewed - Medical Policy Group - Pediatrics and Endocrinology. No changes to policy statements. |
| 12/2007 | Reviewed - Medical Policy Group - Plastic Surgery and Dermatology. No changes to policy statements. |
| 5/2007 | Reviewed - Medical Policy Group - Pediatrics and Endocrinology. No changes to policy statements. |
| 8/2002 | New policy, effective 8/2002, describing covered and non-covered indications. |
