*Non formulary medications are covered when a formulary exception request is submitted to BCBSMA Pharmacy Operations and step criteria below are met.

We may cover the medications listed in the chart above for new starts*# in the following stepped approach.

*#New start is defined as no previous paid claim for the requested medication within the past 130 days.

**Step 1:** Step 1 medications will be covered without prior authorization.

**Step 2:** Step 2 medications will be covered when one of the following criteria is met:
- There must be evidence of a BCBSMA paid claim by the patient of a step 1 drug within the previous 130 days or previous treatment.

OR
• There must be evidence of a BCBSMA paid claim by the patient of a step 2 drug within the previous 130 days or previous treatment.

**Step 3:** Non-Formulary step 3 medications may be covered when the following criteria is met:

• There must be evidence of a BCBSMA paid claim by the patient of a Step 1 drug within the previous 130 days or previous treatment.
  **AND** There must be evidence of a BCBSMA paid claim by the patient of a Step 2 drug within the previous 130 days or previous treatment.

**OR**

• There must be evidence of a BCBSMA paid claim by the patient of the Step 3 drug within the previous 130 days or previous treatment. If the Medication is Not Covered/Non-formulary the drug needs to meet requirements for a Formulary Exception for continued coverage.

**NOTE:** If a Provider submits a request and BCBSMA issues an approval for a step medication, the authorization will be granted for up to two (2) years. If the Member has claims history verifying a fill of a formulary step 1 or formulary step 2 medication within the past 130 days, and no break in coverage, then formulary step 2 medications will continue to pay at point of sale. If the Member has claims history verifying a fill of a formulary step 2 or formulary step 3 medication within the past 130 days, and no break in coverage, then formulary step 3 medications will continue to pay at point of sale. Non-formulary (not covered) medications within a step policy will not have any automation and a paper, electronic or phone call is required.

**Requests based exclusively on the use of samples will not meet coverage criteria for exception. Additional clinical information demonstrating medical necessity of the desired medication must be submitted by the requesting prescriber for review.**

For non-formulary/non-covered medications, requests must meet criteria above and the member must have had a previous treatment failure with or a contraindication to two covered formulary alternatives when available.

We do not cover the medications listed above for other conditions not listed above.

**CPT Codes / HCPCS Codes / ICD-9 Codes**

The following codes are included below for informational purposes. Inclusion or exclusion of a code does not constitute or imply member coverage or provider reimbursement. Please refer to the member’s contract benefits in effect at the time of service to determine coverage or non-coverage as it applies to an individual member.

Providers should report all services using the most up-to-date industry-standard procedure, revenue, and diagnosis codes, including modifiers where applicable.

**CPT Codes**

There is no specific CPT code for this service.
**Individual Consideration**
All our medical policies are written for the majority of people with a given condition. Each policy is based on medical science. For many of our medical policies, each individual’s unique clinical circumstances may be considered in light of current scientific literature. Physicians may send relevant clinical information for individual patients for consideration to:
