Policy Effective Date: 10/1/2023

Policy applies to Commercial Members:
• Managed Care (HMO and POS),
• PPO and Indemnity
• MEDEX with Rx plan
• Managed Major Medical with Custom BCBSMA Formulary
• Comprehensive Managed Major Medical with Custom BCBSMA Formulary
• Managed Blue for Seniors with Custom BCBSMA Formulary

Policy does NOT apply to:
• Medicare Advantage

To request for coverage: Providers may call, fax, or mail the attached form (Formulary Exception/Prior Authorization form) to the address below.

Blue Cross Blue Shield of Massachusetts
Pharmacy Operations Department
25 Technology Place
Hingham, MA 02043
Tel: 1-800-366-7778
Fax: 1-800-583-6289

Individual Consideration for the atypical patient: Policy for requests that do not meet clinical criteria of this policy, see section labeled Individual Consideration.

Summary
This is a comprehensive policy covering step therapy requirements for Vascular Endothelial Growth Factor (VEGF) Inhibitors for non-oncologic indications.
Policy

**Length of Approval**
24 months

**Formulary Status**
All requests must meet the Step Therapy requirement and for non-covered medications, the member must also have had a previous treatment failure with, or contraindication to, at least two covered formulary alternatives when available. See section on individual consideration for more information if you require an exception to any of these criteria requirements for an atypical patient.

**Member cost share consideration**
A higher non-preferred cost share may be applied if an exception request is approved for coverage of a non-preferred or a non-formulary/non-covered drug.

The step therapy requirements for VEGF Inhibitors:

*ST – Step Therapy; * Not available for retail Pharmacy billing

Prior Use Criteria

The plan uses prescription claim records to support criteria for prior use within previous 130 days or the trial and failure of formulary alternatives when available. Additional documentation will be required from the provider when historic prescription claim data is either not available or the medication fill history fails to establish criteria for prior use or trial and failure of formulary alternatives. Documentation will also be
required to support any clinical reasons preventing the trial and failure of formulary alternatives. Please see the section on documentation requirements for more information.

**Provider Documentation Requirements**

Documentation from the provider to support a reason preventing trial of formulary alternative(s) must include the name and strength of alternatives tried and failed (if alternatives were tried, including dates if available) and specifics regarding the treatment failure. Documentation to support clinical basis preventing switch to formulary alternative should also provide specifics around clinical reason.

**Individual Consideration (For Atypical Patients)**

Our medical policies are written for most people with a given condition. Each policy is based on peer reviewed clinical evidence. We also take into consideration the needs of atypical patient populations and diagnoses.

If the coverage criteria outlined is unlikely to be clinically effective for the prescribed purpose, the healthcare provider may request an exception to cover the requested medication based on an individual’s unique clinical circumstances. This is also referred to as “individual consideration” or an “exception request.”

Some reasons why you may need us to make an exception include: therapeutic contraindications; history of adverse effects; expected to be ineffective or likely to cause harm (physical, mental, or adverse reaction).

To facilitate a thorough and prompt review of an exception request, we encourage the provider to include additional supporting clinical documentation with their request. This may include:

- Clinical notes or supporting clinical statements;
- The name and strength of formulary alternatives tried and failed (if alternatives were tried) and specifics regarding the treatment failure, if applicable;
- Clinical literature from reputable peer reviewed journals;
- References from nationally recognized and approved drug compendia such as American Hospital Formulary Service® Drug Information (AHFS-DI), Lexi-Drug, Clinical Pharmacology, Micromedex or Drugdex®; and
- References from consensus documents and/or nationally sanctioned guidelines.

Providers may call, fax or mail relevant clinical information, including clinical references for individual patient consideration, to:

Blue Cross Blue Shield of Massachusetts
Pharmacy Operations Department
25 Technology Place
Hingham, MA 02043
Phone: 1-800-366-7778
Fax: 1-800-583-6289

**We may also use prescription claims records to establish prior use of formulary alternatives or to show if step therapy criteria has been met. We will require the provider to share additional information when prescription claims data is either not available or the medication fill history fails to establish use of preferred formulary medications or that step therapy criteria has been met.**

**Policy History**

<table>
<thead>
<tr>
<th>Date</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>9/2023</td>
<td>Reformatted policy and updated IC to align with 118E MGL § 51A</td>
</tr>
</tbody>
</table>
8/2023 Update to move Eylea ® and Beovu ® to step 3.
7/2023 Reformatted Policy
5/2023 Updated to a two-step policy prior to the August change announced in policy 999.
4/2023 Updated to add Vegzelma ® to step 1 of policy
11/2022 Updated to add Alymsys to step 1 and Cimerli to step 2.
8/2022 Updated to add Byooviz and to move Lucentis ® to step 3
3/2022 Updated new Medications Vabysmo ™ & Susvimo ™

11/2020 VEGF Inhibitors Step Therapy issued. Effective 11/2020. Policy #343 Intravitreal Angiogenesis Inhibitors for Choroidal Vascular Conditions and policy #401 Intravitreal Angiogenesis Inhibitors for Retinal Vascular Conditions were retired effective 11/2020. For coverage information, see policy #092 VEGF Inhibitors Step Therapy.

Forms
To request prior authorization using the Massachusetts Standard Form for Medication Prior Authorization Requests (eForm), click the link below:

Massachusetts Standard Form for Medication Prior Authorization Requests #434
